SAUSKA CUVÉE 13 2016

"This is beautifully made for the level. It perfectly executes its style. It's light and not particularly fleshy, but it has moderate structure, silky texture, some grip on the finish and intensity of flavor. It is laced with tasty raspberries. It is one of those wines that I like to call "summer reds" these days because they are fresh, light, fruit-forward and easy to drink. Plus, they often show better a few degrees cooler than normal, which makes them refreshing. At the moment, this easily exceeds expectations, beautifully done in the style."
