POINTS

## SAUSKA CUVÉE 5 2013

"The warmth of the wine shines through, but it doesn't lose its balance. It has a refined feel when it first rolls onto the palate. Time and aeration changes that impression, however. It shows more as a blockbuster as time goes on, fleshing out in the glass and coating the palate. This is a big boy that swings for the fences and mostly delivers, although it needed a fair bit of air to get there. The rating went up after it was open on the table for a few hours."
