Winemaking

Grapes harvested by hand, whole cluster-pressed at the winery. Primary fermentation in Tokaj. Selection and blending takes place in our cellar in Budafok, with the addition of reserves for desired harmony and balance. From the second fermentation phase, the bottles are matured in a traditional limestone sparkling cellar at a constant temperature of 12 -16 °, with steady high relative humidity of 80-82% throughout the year. Our sparkling wine is matured in bottles for more than 18 months. Dosage: 8 gr/l.
